**Where Do You Carry Your Knife?**  
Most people have formed some fixed habits, such as carrying certain things in certain pockets. Knife in one, change (when they have it) in another, and keys in still another. You know how strong these habits become. How you follow them unconsciously. But perhaps, you don't know that the habit of saving can also be firmly fixed by cultivating yourself. developed upon property owners and devolved upon property owners and the West Penn, which has a line on that street.

Solicitor May said no report could be made until next meeting, regarding the Greenwood school property deed. A meeting of former owners of the property, Rockwell Barfield, Harry Schenk, John Dugan, Sr., and L. P. Ruth, is to be held prior to the next meeting of the School Board, at which an effort will be made to remove a clause providing the property should revert to the former owners if used for other than school purposes. The present deed, which contains this condition, does not, the board claimed, give the school officials clear title to the property.

Only one bid was received for the walk in front of the South Side school building, on Race street, and it was ordered held until other bids are received. The contract, following receipt of other bids, likely will be awarded at a special meeting of the board.

The reports of Secretary Hyner and Treasurer Halsey were received and accepted. The treasurer's report shows a balance of \$1,589.11 in the sinking fund, an overdraft account of \$575.91 in the general fund, and a balance of \$3,013.17 in the bank.

Tuition for twelve pupils attending local schools was fixed at \$4.50.

Members of the board at the meeting last night were Directors Shaw, Ruppel, Davidson, Halsey, Hyner and Smith, President Younklin arrived late.

**"ONE DAY" AT THE SOISSON**  
DRAWS APPRECIATIVE AUDIENCE

Performance, Marred by Rowdiness. Displays Indecent Moments at Times, Delicately.

Night One of this season at the Solson theatre was marked last night, by a performance of "One Day," sequel to that successful novel, "Three Weeks," the dramatization of which made press agents and managers chortle.

Aside from a few minor defects, the rendition of "One Day" was creditable. But even the leading performers read their lines by rote. In crucial moments when the passion of the lovers was supposed to be exquisite, the beauty of the passages was marred by mere mouthing and mumbling.

This may not have been altogether due to the inability of the actors. Roughs and rowdies in the gallery, by hoots and howls, interrupted the performers. The management of the theatre, by failure to maintain order. It was considered a slur upon local culture and appreciation to permit such hoodlums.

"One Day" was disappointing to some. Those who looked for suggestiveness, for outre methods, for those things while the so-called upper classes do without denunciation this side of their horizon, were not painfully apparent last night. Of course, the villain enacted the usual number of cigarettes, swigged in his dress suit, and leered the regulation leer, but, aside from faint intimations of unholy and hopeless love there was little to shock the sensibilities.

"He looked like a Greek god," gushed the unfortunate, Opal Ledoux, (Glen Marie Dight) one of the two setting stars of "One Day," in telling of her affinity. Paul, Prince of Sardinia (Robert Brister) "but of course he was a bastard." By which display of petty thought, she intimated the man also was a drap.

The tiger-rug, somewhat anemic and frowzy, which featured in the amorous adventures of the parents of Paul, spotted a grunt and then cooed loudly large in the death of Paul and Opal, when, conscience-stricken, they stabbed themselves in the former's hand. Here again, those in the master roles failed the apogee. Paul pressed the attitude into his hand, by which he killed her. He looked like a Greek god, she gushed, she intimated the man also was a drap.

On the whole, Brister's performance was good, far better than others of the cast. He appeared fresh, youthful, energetic. In certain moments of emotion he displayed understanding. He was spontaneous. Miss Dight's articulation was imperfect. But in the portrayal of the finer passion, she exhibited warmth and color.

Others of the company, excepting William Offerman as Bobby Ramsey, A. C. Henderson as Sir Paul Verdano and William Dean as the steward, were mediocre. The steamship scene in Act Two was pleasing as to detail. The audience was appreciative when undisturbed by rowdiness. Plays of the character of "One Day" are tedious and at times preposterous, are tolerated by reason of broad intelligence. The Solson management was congratulated last night for its efforts to give the best, if not the morally best.

"Mum Sherry" will be played Thursday.

TUESDAY EVENING, SEP. 10, 1912.

FALSE IN ONE THING.  
FALSE IN ALL.

Theodore Roosevelt publicly announced, November 8, 1904, and subsequently in substance reiterated:

On the 4th of March next I shall have served three and a half years, and this three and a half years' tenure will be the limit of the term and UNDER NO CIRCUMSTANCES WILL I BE A CANDIDATE FOR OR ACCEPT ANOTHER NOMINATION.

## MAINE AND VERMONT.

Those New England States, which have hitherto been regarded as prophetic, are not pivotal in their fall elections. I am not in the Presidential election, I have already failed a political slambang. As we have hitherto remarked, this is an unusual year in weather and in politics, and all signs are uncertain and misleading.

Vermont's election proved nothing and Maine's little more, but both established one indisputable fact, namely:

That, as heretofore, the Republicans are in a majority in the country, and the Democrats are still in the minority that it lies in the power of the Republicans to elect their own President and Congress, retain control of the government, continue present prosperity for all the people and do so without burning down their happy homes and feeling naked and desecrating the woods of defeat, that the only hope of the Democrats lies in Republican decisions and liberal support of the traitorous Third Term candidate by his deluded Third Term followers.

It is time sensible Republicans were asking themselves the question, Shall the prosperity of the nation and the happiness of the people be subordinated to the personal ambitions of the bellicose Bull Moose?

Shall the Republican party be torn with passion and the American people suffer from business unrest at the imminent threat of the man who lifted his hands to heaven and in the presence of all the people promised to hold sacred the Unwritten Law against a Third Term, but who, since then, has been constantly underfoot and loud in voice and sure in his hands upon the Ark of the American Covenant?

## A PROSPECTIVE NEW INDUSTRY.

The Chamber of Commerce has gotten down to real business and is trying to locate a nine-mill or ten-mill plant, which will employ upwards of 1,000 hands and add substantially to the population and prosperity of Connelville. This work they should have the hearty support of the substantial interests of the town to whatever extent within the confines of reason that may be necessary.

This industry will not work into Connelville, but it will have to be persuaded and perhaps urged. The fact that Morgantown capitalists are interested in the company is perhaps something of a handicap, but not a serious one, since the stockholders of that company will be governed in the location of their new plant by business rather than sentimental reasons.

Morgantown has the advantage of being close to the West Virginia natural gas fields with the possibility of securing cheap gas that is offered in Connelville, but any advantage of this sort is more than offset by the superior railroad facilities of Connelville. The natural gas supply is uncertain. The railroads are uncertain. Limiting natural gas, coal is the fuel used. Connelville's coal supply is quite as cheap and abundant as that of Morgantown. All things considered the natural advantages of Connelville are quite as good as those of Morgantown or any other town in Western Pennsylvania or West Virginia.

It may be asked, in this connection, why the lumber mill plant is not being operated. The answer lies largely in the later consciousness of the American Sheet & Tin Plate Company; but it is known that if the mills in this industrial district that at Morgantown enjoys the substantial advantage of a low-priced long-term natural gas contract, and that the two profitable mills are the home plants of the manager. The fourth mill, that at Connelville, has consequently become the emergency mill, running only when demand is high.

It will also be remembered that it seems to have become the policy of the tin plate trust, as it has been called, to permit the establishment of enough independent mills to relieve them from the suspicion of being a monopoly. In line with this policy this has been offered to sell the tin plate mill. This offer has been considered by the tin plate trust, and it is reported that the tin plate mill is to be sold.

The tin plate business is profitable and pays good wages to its workmen. A 10-mill plant is worth struggling for.

Scientists tell us that the safety of future generations depends upon Government regulation of combustion and atmospheric carbonization. Perhaps it will be found before the 1,600 years allotted for this impending trouble to materialize that we will have to conserve the coal and resort more to the use of hydro-electric power which involves no combustion.

Carroll crossed the Rhine with less trouble than the Fayette County Gas Company is encountering in the passage of Mount Pleasant.

Dunbar will let its light shine on Columbus Day.

Mount Pleasant bore the brunt of the last Connelville coke region storm, and some of the mines there narrowly escaped being flooded, repeating the "Poland" disaster. J. H. Davis does not seem to be particularly what part of the region he reaches just so he hits it.

"It does seem too bad that the people are again to be persecuted by a Vice candidacy," says The News. The Official Organ of the Youth Democracy is not so far from the mark. Two years ago it put its O. K. on the candidacy of Wise and heartily endorsed its platform and all its alleged progressive doctrines. Wise was running on the Democratic ticket then, and it seems was not so postifous as he is now.

Basket ball's a sign of fall.

Mount Pleasant's pole plant has been knocked down to live capitalists who will pole up the business. Mount Pleasant is getting back.

Colonel Roosevelt is fast earning the name of being the Doctor Cook of politics. His discoveries are seriously questioned. Colonel Bryan has all along insisted that they were borrowed from his recipe book, and now comes Joseph Horck with a similar claim and produces his 1910 platform to prove it.

The financial plan of the Youth Men's Christ in Association is still radically different from the standpoint of careful business. It provides that the rents of the building shall be applied to the cost of keeping up repairs and the payment of interest on the debt. But what of the debt?

As a financial venture the Connelville baseball tour was a brilliant failure, but if the boys didn't bring back a burden of wealth they held fast to honor and refused to sail under false colors.

Saturday night brawls at some of the coke plants have a sensibly diminishing effect upon the labor supply.

The owners of vacant lots have been ordered by the health authorities to cut their weeds. The crop might have been more profitable if the suggestions of The Courier earlier in the season had been acted upon. Vacant lots can grow other things besides weeds.

MRS. GREATON'S  
AWFUL  
EXPERIENCE

During Change of Life—How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman.

Natick, Mass. — "I cannot express what I went through during the change of life before I tried

Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—Mrs. MARGIE SWEET GREATON, No. 1 Jefferson St., Natick, Mass.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

AT THE THEATRES.

THE SOISSON.

"Every little movement has a meaning."

Every thought and feeling by some posture can be shown.

And every love thought that comes stealing over your being must be revealing.

All its sweetness in some appealing little gesture of the soul.

This is the message that haunting melody which forms the musical theme of "Madame Sherry," the Haverbach-Hoschma musical comedy which has secured such a tremendous success in Chicago and New York and which is now being presented at the theatre here.

Sept. 12. If performance you haven't heard the words, you surely know the tune. If you have not, there's something decidedly amiss with your musical education. Surely you cannot fail to be drawn to the door of the cafe, or to the music of the piano or the street whistles.

"Every Little Movement" is a musical epic. A week after the initial American production of "Madame Sherry" at the Colonial theatre, Chicago, the score of the piece, and especially its theme number, was becoming popular in every part of the country from Boston to San Francisco.

By the time "Madame Sherry" reached New York the melody had captured the globe and the publishers of the songs reported sales in London, Paris, Berlin, Vienna, South Africa and Australia. After its first New York performance the tune was heard on the streets and in the subway.

Don't scold cross, irritable children.

See if tongue is coated, stomach sour and bowels waste clogged.

Children dearly love to take delicious "Syrup of Figs" and nothing else cleans and regulates their tender little stomachs, liver and 30 feet of bowels so promptly and thoroughly.

Children get bilious and constipated just like grown-ups. Then they get sick, the tongue is coated, stomach sour, breath bad; they don't eat or rest well; they become feverish, cross, irritable and don't want to play. Listen Mothers!

For your child's sake don't force the little one to swallow anything as harsh as violent cathartics or harsh laxatives like Calomel pills. A teaspoonful of Syrup of Figs will have your child smiling and happy again in just a few hours. Syrup of Figs will gently cleanse and soothe and regulate the stomach, make the liver active and move out of the bowels all the constipated matter, the sour bile, the foul, clogged-up waste and poisons, without causing cramps or griping.

With Syrup of Figs you are not dangerous or injuring your children. Being composed entirely of delicious figs, senna and aromatics it cannot be harmful. Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name "Syrup of Figs" and Elber of Sonoma prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

# The Chronicles of Addington Peace

A skilful twist of two with a bit of wire and the key was pushed from the lock. The duplicate opened the door. Peace walked into the room, and I followed at his heels.

On his bed, fully dressed, lay poor Terry. With a face paler than his pillow. His breath came and went in short, painful gasps. One hand strayed continuously about his throat, groping and plucking at his collar with feverish unrest. It was a very painful spectacle.

"It will need for a doctor at once," I whispered, stepping to the bell. But Peace held up a warning hand.

"Come here," he said. "I have something to show you."

With movements as tender as a woman's he unfastened the man's collar and slipped out the stud. Then he paused. The eyes that watched me had turned cold and hard.

"If it is as I suspect, you may be called as a witness. Do you object?"

"Yes, but I shall not leave you on that account."

"Very well," he said, as he opened the shutter, exposing to the light. But Peace held up a warning hand.

"Come here," he said. "I have something to show you."

ing up by the yew walk. The murderer might have noticed our approach. More natural than that he should have bent double as he ran, thus obtaining the cover of the left-hand ledge, which was not more than four to five feet high. Did not this answer to your description of the thing you had seen? It would have been a good work for him. I made a note to be on the look-out for chills.

"For a couple of hours I devoted myself to speeding those guests who ought the eleven-thirty train. I do not think a trunk left for the station, of which I have not a complete inventory. Indeed, the baronet's creditors have to thank me for the return of several trifles of value, which were included, accidentally, no doubt, in the ladies' dressing-bag."

"After the carriages had started I went in search of Terry, and discovered that he had not left his room. Equally to the point, his windows looked down upon the spot where the baron made his detour over the grass while escaping. I became interested in this young man. The score was creeping up against him. A ladder from an obliging gardener allowed me to observe him from the window. A visit to the housekeeper gave me a duplicate key to his door. What happened in the room you know, Mr. Phillips."

"But, the motive—why did he kill his father?" I asked him eagerly.

"I doubt if we shall ever learn the truth on that point," he said. "As far as I can make out, Steen was directly responsible for the ruin and disgrace of Terry's father. Probably the son did not fully realize this when the baron, with a pity most unusual in the man, gave him the secretaryship."

He held out his hand, which I shook, without any great degree of enthusiasm.

"Is this Addington Peace at home, do you think?" he continued.

"I don't know," I told him. "I should walk upstairs and find out if I were you."

"There I recognize the practical hand. You know him?"

"Yes."

"Then, we will go together. You can introduce me."

I was offended at the noise and bluster of the man; but he had grabbed my arm, and I didn't want a scene at my own door. I led him up the stairs, his voice growing silent as his lung capacity weakened. The inspector's voice cried an invitation to my knock, and I entered, with the cool putting at my heels like a locomotive on a stiff incline.

"Sorry to disturb you, Peace," I said. "But this is a gentleman of the name of Guntion, and he appears anxious to make your acquaintance."

The little man rose from his easy-chair, and stood looking at the stranger with an expression of great good-humor.

For myself, I was about to withdraw when the colonel's hand dropped heavily upon my shoulder.

"Don't you go," he said. "A comopolitan, a detective and a man of the world, as I am, form a unique combination. And, by Guntion, gentlemen, we shall want all our brains over this affair."

I glanced at Peace, who smiled and nodded. So I stayed.

The colonel kindly consented to take the most comfortable chair, sighed, stretched out his legs, lit a cigar and then, without further introduction, plunged into his story.

"Perhaps you have heard of Julius Taubery? No? Well, it's a name as well known throughout India as the viceroys'. He is the head of one of the richest firms in Calcutta. Went out there as a young man, worked well, married well, and ended well in all things, save his constitution, with which he played the very devil in 1900 he returned and took a fine London house in Portland place, together with an old hall down in Devonshire place. A month ago the doctors ordered him out of England for life. Rough on him, wasn't it, seeing that he had spent two-thirds of his time out of it at last."

"All the time that Sir Andrew had been spending, the fat fellow next to me had been snoring and snoring until, 'pon my soul, I thought he was in for a stroke of apoplexy. I am the best-tempered of men, but I have my limits, and the old grampus was one of them."

"Are you in pain, sir?" I asked him.

"Yes, I am, sir," he said, in such a high, squeaky voice that all the table could hear him. "I object to listening to the definitions of so-called experts, who cannot tell a diamond from a glass marble. Experts? Humbug, to his side and stood staring about him like a plowman lost in Piledditch."

"This is not the stone I examined five minutes ago," he stammered.

"Nonsense," said old Julius, with a shadow of fear in his eyes. "Nonsense, Endicott, look again."

"Can it be that two such famous experts have made a mistake?" sneered Sir Andrew. "Can it be that a humble amateur like myself is right and that they are wrong? As I told you, gentlemen, the Hyderabad diamond—"

"Hyderabad diamond be d—d!" squealed the fat man. "This thing is a fake, a clumsy imitation. Taubery, you have been robbed!"

"We were all on our feet in an instant amid a clamor of tongues. But there was one man amongst us that kept his head; one man who realized that his honor was in peril; that immediate action was necessary. His name—if I am not too egotistical—is Theophilus Guntion.

"Fortunately I have a voice of some power, and a manner that, when my feelings are strongly moved, is perhaps not unimpressive. I commanded and obtained silence. I begged them to resume their seats; they obeyed."

"Julius Taubery," I said, "has your diamond disappeared?"

"He answered that it had, looking at the imitation stone, which they had returned to him, in a silly, scared way."

"Julius Taubery," I continued, "we, your guests, lie under a stigma, an imputation. We cannot leave the house under such circumstances. Some one must have brought the imitation stone with him for a purpose that it is needless to define. The real jewel must be in his pocket at this moment. Let us, therefore, be searched."

"They all sat silent as mice under my eye, save the professor, who grunted as if in dissent."

"Do I understand that you object to my plan, sir?" I asked him. "Do you refuse to be searched? And if so, may I ask why?"

"He saved me an angry look, but he had not the courage to contest the point."

"Then, I may take it that we are all agreed. Taubery, you have a library upon this floor. As I passed the door before lunch I noticed that there was an excellent fire there. Professor Endicott and myself will retire to that room. I will search the professor; the professor shall search me. After that"

ready? But the south of France is a—any chance, they tell him; so, like a wise man, he is selling off his stocks, and settling down at Mentone, without squealing to show how much it hurts him."

"Julius and his wife—she's one of the kindest-hearted women I have been giving some farewell parties to their old friends. They had a lunch today, one thirty sharp, and a lot of people turned up. After the ladies had left us, the talk as Jack would have it, fell on precious stones; and Julius Taubery is a crank on them. There were one. His wife wears the finest jewels in London, and the old man is supposed to have many thousand pounds' worth more locked away, which he won't trust even her with the handling."

"Gentlemen," says he, 'I will show you something that may interest you. It is a new purchase of mine, and it happens to be a remarkable stone!'"

"He pulled a green case from an inside pocket, flipped it open, and there the thing was as big as a walnut. The lights were on, it being dull weather, and the stone blinked and sparkled like the sun on dancing water."

"My word, Julius," I said. "But that's a risky bit of stuff to carry about with you."

"It's going to the bank this afternoon," he answered. "So if you want to examine the pretty jabbie, gentlemen, this is your last chance."

"And with that he took it from his case, as proud as a young husband of his first baby, and sent it round the table."

"I was sitting on Julius' left. Between us was a fat old boy, who was a stranger to me. He took a long stare at the stone, whispering softly between his teeth, before he passed it on. It went from hand to hand, never out of sight, so far as I could notice, until it came to Sir Andrew Carillon, who fancied himself an expert on gems. They say that when Lady Carillon is in the stalls, the play is 'tossed to the women sitting behind her, for they can't keep their eyes off her pearls. Sir Andrew pulled out a magnifying glass, and began examining the diamond."

"I congratulate you, Taubery," he said, after about a minute. "You have acquired a historical stone!"

Old Julius leant back, with a smile half-way round his head, but he didn't say a word.

"Professor Endicott climbed to his feet with a grunt of dissatisfaction, and leant over the table, thrusting out his podgy face to receive the jewel. He remained standing, with his body awayed forward, so that the electric lights above the silver center piece might shine the brighter upon what he held. Presently he dropped his hands

to his sides and stood staring about him like a plowman lost in Piledditch."

"This is not the stone I examined five minutes ago," he stammered.
